Effective post-operative care is essential to obtain the best results and improved patient satisfaction.

EPIfoam™ offers patients and surgeons an important evolution in post-operative care. **EPIfoam™** provides an excellent platform over which to apply post-operative compression garments. **EPIfoam's™** unique silicone-gel surface provides a gentle adherent patient interface that helps avoid the problems associated with more aggressively adherent foam pads. **EPIfoam's™** top-quality, medical-grade polyurethane foam helps ensure consistent compression distribution.
